

Subha Ramani MBBS, MPH, MMed, PhD, FAMEE

Associate Professor of Medicine; Harvard Medical School, Boston, MA, USA

Honorary Professor of Medical Education, University of Manchester, Manchester, UK

Visiting Professor, Medical Education, University of Indonesia, Jakarta, Indonesia

Adjunct Associate Professor, Massachusetts General Hospital (MGH) Institute for Health Professions Boston, MA, USA

Associate Physician, General Internal Medicine/ Director, Program for Research, Innovations and Scholarship, Dept of Medicine/ Brigham and Women's Hospital, Boston, USA

I am a general internist and a medical educationalist. I graduated with an MBBS degree from University of Madras, India; completed Internal Medicine residency training at the Postgraduate Institute for Medical Education and Research, Chandigarh, India as well as East Tennessee State University. Subsequently I completed a General Medicine Fellowship at Boston University School of Medicine and a Masters in Public Health from the Boston University School of Public Health.

Since 2001, I have pursued extensive training in Medical/Health Professions Education which included the Stanford Faculty Development Program, four Harvard Macy programs, a Masters in Medical Education from the University of Dundee and a PhD in Health Professions Education from Maastricht University.

I serve in a few educational leadership roles at my institution. At Brigham and Women's Hospital in Boston, I serve as the Director for a yearlong longitudinal Program for Research, Innovations and Scholarship for Department of Medicine faculty; Director of the Scholars in Medical Education pathway for the Internal Medicine Residency program; and Lead for Global Perspectives and Community for the Brigham Education Institute. I also am a Senior Faculty at the Harvard Macy Institute and Faculty for the PhD Programme at the MGH Institute for health professions.

My international educational roles include: AMEE Executive Committee Board member; and Chair of the AMEE Fellowship Committee; Visiting Professor at the University of Indonesia; and Honorary Professor of Medical Education at the University of Manchester, UK. In addition, I formed a global community of mentors and scholars who publish, present webinars and workshops for an internal audience of health professions educators.

My areas of research and scholarly interests include staff development in clinical teaching, application of educational theory to practice, sociocultural factors that influence feedback conversations, mentoring and qualitative research. I have several peer reviewed publications in medical education journals, have co-authored book chapters and organized a range of presentations from plenaries to workshops to longitudinal courses.
