SPECIALIZATION COURSE IN POST-TRAUMATIC (PERSONAL) INJURY ASSESSMENT

Designed to provide all professionals working in the field of (Personal) Injury Assessment with competence and practice in the field of judicial and extrajudicial intervention in damage compensation.

This course allows doctors and dentists to carry out an expert activity in accordance with their medical specialty, helping to develop or update the knowledge of the respective professionals who work or may work in insurance companies, courts and other public or private institutions related to forensic activity.

It is directed towards graduates in Medicine and Dentistry, but professionals from the fields of Law, Psychology, Nursing and Social Work may also be admitted.

SCIENTIFIC COMMITTEE

Cristiana Palmela Pereira (coordinator), Francisco João Salvado e Silva (coordinator), Dobrila Nikolic (coordinator), Pedro Oliveira (coordinator), Sofia Frazão (coordinator), António Gonçalves Ferreira, Francisco Corte-Real e André Pereira
