FACULTY

Daniel Caldeira

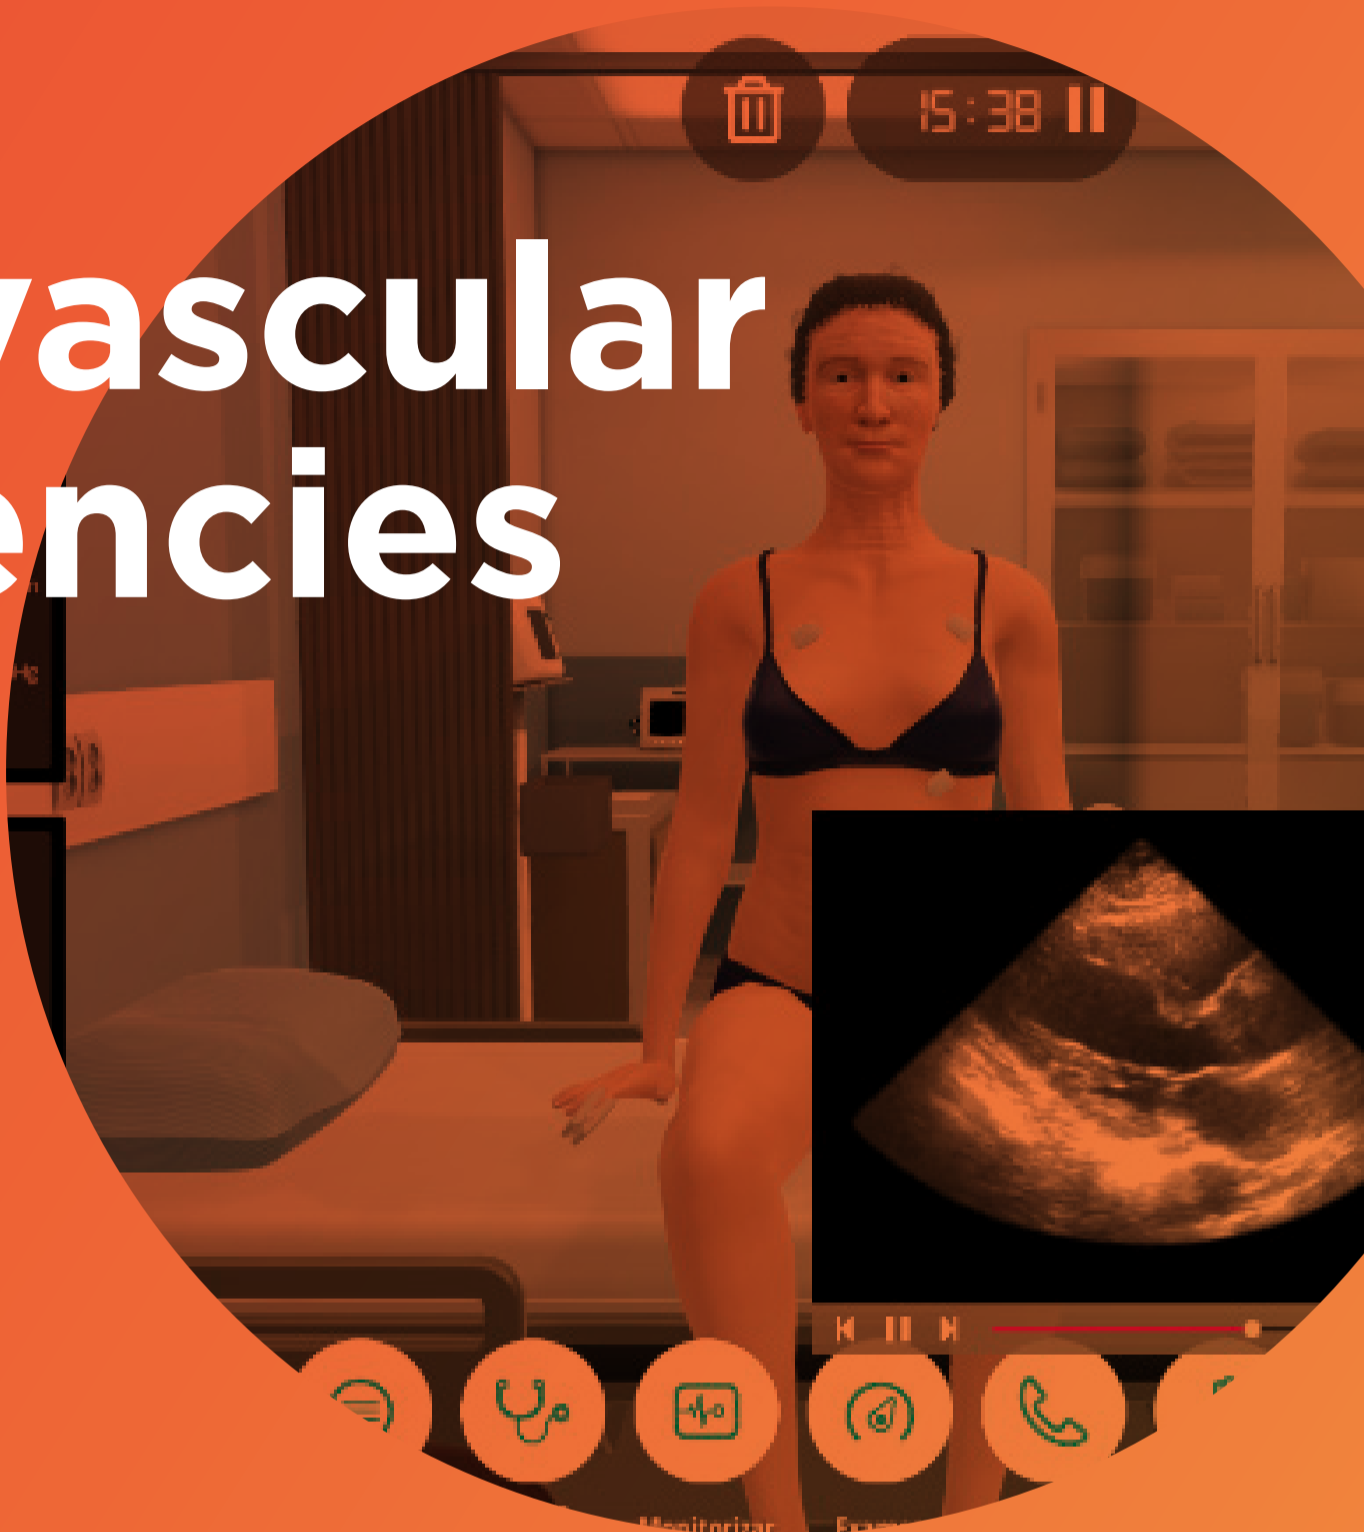

Gustavo Silva

João Agostinho

Miguel Menezes

Catarina Sousa

Tatiana Oliveira

COURSE OUTLINE

Available in English and Portuguese . 2 ECTs

All modules lectured at 18H - 19H30

Module 1 | 09.04.21

Cardiac Tamponade

Module 2 | 16.04.21

Monomorphic ventricular tachycardia

Module 3 | 23.04.21

Acute heart failure

Module 4 | 30.04.21

Infective endocarditis and acute aortic regurgitation

Module 5 | 07.05.21

Cardiogenic shock

Module 6 | 14.05.21

Acute right ventricular failure

Module 7 | 21.05.21

Young decompensated patient with constrictive pericarditis

Module 8 | 28.05.21

Lower GI hemorrhage with persistent non-valvular AF

Module 9 | 02.06.21

Non-valvular atrial fibrillation

Module 10 | 09.06.21

Acute coronary syndrome with heart failure

Module 11 | 18.06.21

Unstable angina

Module 12 | 25.06.21

Mysterious myocarditis in a young patient

Module 13 | 02.07.21

Pericarditis (pediatric)

Module 14 | 09.07.21

Child with decompensated supraventricular tachycardia (pediatric)

Module 15 | 16.07.21

Peripheral arterial disease: Worsening claudication

Module 16 | 23.07.21

Pulmonary embolism without hemodynamic instability

WEBINARS (17H-18h)

Webinar 1 | 07.05.21

Webinar 2 | 02.06.21

Webinar 3 | 23.07.21
